Medical Officer of Health, Health Department

SUBJECT/OBJET                        **DECISIONS OF THE ALLOCATIONS COMMITTEE  
FOR 1998 PROJECT GRANTS FOR HEALTH AND  
SOCIAL SERVICES**

---

## INTRODUCTION

This information report presents the decisions of the Project Grant Allocations Committee pertaining to the Health Department and the Social Services Department Project Grants for 1998.

## BACKGROUND

The Health Grant program was created in 1993 to support new and short-term health promotion projects and innovative health strategies.

Since 1991, the Social Services Department has assumed responsibility for the allocation of project grants which support creative time-limited initiatives to deal with the social issues of people on low-income.

In 1994, representatives of the RMOC Health Department, the RMOC Social Services Department, United Way/Centraide Ottawa-Carleton and the Ottawa-Carleton Regional District Health Council met to streamline and coordinate the administration of the four funders' annual grant processes. The purpose of this collaboration was to streamline a process that makes more sense to the funders and the community, is easy to understand, takes less time, is credible and fair and ensures the coordination of funding to the community. Within this collaborative approach, the separate mandates, priorities and identity of each funder has been maintained. In 1996, the Ottawa-Carleton Regional District Health Council terminated their involvement since the Ministry of Health discontinued funding for their Health Promotion grants.

## PRIORITIES FOR PROJECT GRANTS

### Health Department Priorities

In May 1997, the Community Services Committee approved the following areas as priorities for the 1998 Health Grants Process:

- Strategies that improve health by reducing risk-taking behaviour among young people; and
- Women's Health Promotion

These priorities were developed as a result of a community consultation process which was conducted in February 1996. A survey was distributed to 241 agencies and the response rate was 47%.

### Social Services Priorities

Funding priorities as approved by Community Services Committee in June 1997 for 1998 are:

- Initiatives which impact positively on reducing poverty and its effects;
- Initiatives which reduce homelessness or provide services to people who are homeless; and
- Services to ethnic and racial minorities and aboriginal groups.

A Poverty Funding Framework was developed early in 1997 jointly with United Way/Centraide for the funding of programs and services specifically designed to strengthen the capacity of the community to respond to poverty and to promote self-sufficiency. In the course of several months, an environmental scan, key informant interviews, discussion groups with low-income people, meetings with agencies funded by RMO Social Services Department and United Way/Centraide, and discussions with a reference group helped shape the Poverty Funding Framework which influenced the development of priorities for project funding in 1998. The Poverty Funding Framework encompasses the three strategic goals of the Department which are: assisting clients to obtain jobs, reducing reliance on the Social Services Department services, and assisting clients to meet basic needs.

The issues of homelessness continues to be relevant to the Department since people who are homeless or at risk of being homeless continue to be one of the most vulnerable groups in the Region.

There is a continued need for funding in matters dealing with racism and services to ethnic and racial minorities and aboriginal groups.

## REVIEW OF REQUESTS

In June 1997, the three funders jointly requested, from the community, applications for 1998 project grants through advertisements in local and community newspapers and through an information flyer to community health and social services organizations.

In June 1997, representatives of the three funding organizations held sessions in both official languages to inform potential applicants on the funding process.

The closing date for submission to the 1998 Project Grant process was October 1, 1997. In total, one hundred and nineteen (119) applications from eighty nine (89) agencies were received. From this number ninety three (93) applications pertained to Health and/or Social Services Departments.

The total requests amounted to \$2,887,834. From this amount \$2,541,183 were requested from Health and Social Services.

All applications to the three funders were reviewed by a joint Allocations Committee, comprised of:

<b>NAME</b>	<b>ORGANIZATION</b>
Catherine Graham	Volunteer - Chair of Allocations Committee
David Gluzman	Ministry of Community and Social Services
Barbara Carol	Debra Dynes Family House
Councillor Diane Holmes	Community Services Committee
Doctor Elizabeth Diem	University of Ottawa - School of Nursing
Madeleine Dubois	École de Service Social - Université d'Ottawa
Denise Mattock	Child Poverty Action Group
Jean-Luc Racine	Volunteer
Barbara Ramsay	Pharmacist/Associate Owner - Shoppers Drug Mart
Denise Vallely	Youth Services Bureau
Colleen Whiteduck	Aboriginal Women's Support Centre
Heather McCormick	Ottawa-Carleton Regional District Health Council Staff
Hedat Berhane	Social Services Department Community Services Staff
Diane Martin	Social Services Department Community Services Staff
Ginette Séguin-Roberge	Health Department Staff
Abebe Engdasaw	Health Department Staff
Suzanne O'Byrne	United Way/Centraide Ottawa-Carleton Staff
Sheila Robertson	United Way/Centraide Ottawa-Carleton Staff

The Allocations Committee met for the equivalent of six days in the fall of 1997, reviewed all applications and made funding decisions.

Applications were reviewed in the following manner. Allocations Committee members were provided with rating forms for each application to be reviewed. After discussions, all individual ratings were averaged to arrive at a single common rating for each application. A final review of all ratings helped ensure that funding decisions reflected order of importance. Preference was given to projects that were new, innovative and creative, were clearly defined, realistic and cost-efficient, demonstrated the involvement of the target group in planning and implementation of the project, demonstrated collaboration or joint ventures with other agencies, and were accessible to diverse communities.

## ALLOCATIONS COMMITTEE DECISIONS

On October 25, 1995, Regional Council approved that Allocations Panels have final authority for the allocation of Regionally approved funds for Project Grants, with grant reports going to Committee and Council for information.

The Allocations Committee made its decisions based on the availability of approximately \$856,981 between the three funders, of which \$260,000 was allocated by the Health Department and \$346,981 by the Social Services Department.

Due to limited funding, it was impossible to fund all applications. Of the 93 applications reviewed pertaining to Health and/or Social Services Departments, 19 will receive funding from RMO Health Department (one joint funding with United Way/Centraide Ottawa-Carleton) and 21 will receive funding from RMO Social Services Department, as outlined below. More detailed information on all applications to Health or Social Services received is found in Annex A. Annex B shows breakdown of requests that received funding by funding priority of Health and Social Services Departments.

ORGANIZATION	\$ Recommended

Women Working Towards Tomorrow		\$10,281.00
<b>Total</b>	\$260,000.00	\$346,981.00

Projects not recommended for funding are found in Annex C.

### RIGHT OF RECONSIDERATION

On October 25, 1995, Regional Council approved that an optional Right of Reconsideration process be used for Regional grant programs and that reconsideration be heard by the original Allocation Panel.

### PUBLIC CONSULTATION

The priorities for Project Grants arise out of the Social Services Department's Poverty Funding Framework and its strategic goals for 1997 - 1999. Community consultation for the development of the Poverty Funding Framework comprised of interviews with key informants, discussion groups with people on low income, meetings with community social services agencies and discussions with a reference group. The Department's strategic goals were developed internally.

The priorities for 1998 Health grants were established on the basis of the information received from a survey questionnaire which was distributed to 241 agencies in February 1996.

The community was also represented throughout the allocations process in that the Allocations committee was made up of representatives from other funders, agency volunteers, and consumers of services.

Applicants will be involved in the evaluation of the process through a questionnaire to be sent to individual applicants once the allocations process is completed.

### FINANCIAL CONSIDERATION

The amounts of \$260,000 by the Health Department and \$346,981 by the Social Services Department were available for allocation for 1998.

### CONCLUSION

The Health Department and the Social Services Department would like to recognize the members of the Allocations Committee for their invaluable contribution in reviewing the grant applications and making decisions for funding.

The Health Department and the Social Services Department would also like to acknowledge and commend the efforts of all the community groups and agencies who applied for funds to carry on projects to improve the quality of life in Ottawa-Carleton. These include the coordination of projects in communities who are exposed to high levels of stress due to poverty and rapid changes in their ethnocultural composition. Their generosity and vision are inspiring.
