| ARA 01-11      | Has City staff investigated the use of soy based sealants or other similar new advancements for road surfacing projects in the rural area, rather than coal/tar polymer slurry? Can such options be considered when tendering future projects in the rural area | 4-Nov-11     | Councillor S. Blais | ISCS - DCMO | Open     | N/A           | N/A              |
