

COMMUNICATION & COUNSEL

Report: First Quarter 2012 Performance Report
Prepared by: Matthew Pritz, Manager, Business Services
Prepared for: Ottawa Public Library Board
Meeting of: May 14, 2012
Date of preparation: May 2, 2012

First Quarter 2012 Executive Summary					
	2012	2011	+ / -	% Change	↑ ↓
First Quarter Circulation					
First time Circulation	2,151,594	2,063,953	87,641	4.2	↑
Renewals	657,669	623,138	34,531	5.5	↑
First Quarter First-time Bookmobile Circulation					
Bookmobile	26,589	30,917	-4,328	-14	↓
First Quarter French Circulation					
Circulation	233,336	225,307	8,029	3.6	↑
Renewals	87,740	82,528	5,212	6.3	↑
First Quarter World Language Circulation					
Circulation	70,123	73,799	-3,676	-5	↓
Renewals	27,404	31,241	-3,837	-12.3	↓
Virtual Visits	2,876,084	4,153,376	-1,277,292	-30.8	↓
Downloadable Media	113,635	43,187	70,448	163	↑
Public Access Computer Usage	208,720	219,445	-10,725	-4.9	↓
Library Wireless Internet Usage	52,578	31,996	20,582	64.3	↑
Library Database Usage	39,728	27,215	12,514	46	↑
Program Attendance	45,306	44,420	886	2	↑

Introduction

The First Quarter 2012 Performance report provides data on the following performance measures for January, February and March of 2012:

Circulation of all materials, circulation by bookmobile stop, circulation of French materials, circulation of world language materials, electronic usage including: virtual visits, downloadable audio, music and e-books, public access computer usage, library wireless internet usage, total internet usage, library database usage, programs offered, the Fourth Quarter Performance Reports to Council and a list of other surveys the library submitted during the first quarter.

The following events affected service in the first quarter of 2011:

- The Ruth E. Dickinson branch main floor was closed for renovations from February 22 until May of 2011. The second floor of the Library was open for business and some services were modified.
- The Alta Vista branch was closed from September 7, 2010 to January 21, 2011 for renovations resulting in the loss of 18 service days in Q1 of 2011.
- The Carlingwood branch was closed January 24 to the 26 due to a heating issue resulting in the loss of 3 days of service in Q1 of 2011.
- The Manotick branch was temporarily closed for renovations from January 25-26 resulting in the loss of 2 days of service in Q1 of 2011.

The following events affected service in the first quarter of 2012:

- The Hazeldean branch of the Ottawa Public Library is closed to receive improvements from January 23 to the month of June 2012. As of January 28, customers are able to return their borrowed items, pick up their holds and check-out Express items at the Library Depot located in the Branch.
- The bookmobile experienced mechanical problems affecting the availability of the bookmobile service.
- The Library Kiosk experienced technical equipment difficulties.
- The Bookmobile added the Bridlewood stop at the Eva James Memorial Community Centre on January 13, 2012.

1. Total Circulation of all Materials

Figure 1 depicts total Q1 circulation trends for the past three years (2010–2012), including renewals. Circulation in Q1 2012 is 4.6% higher than for the same period in 2011, and 5.4% higher than for the same period in 2010.

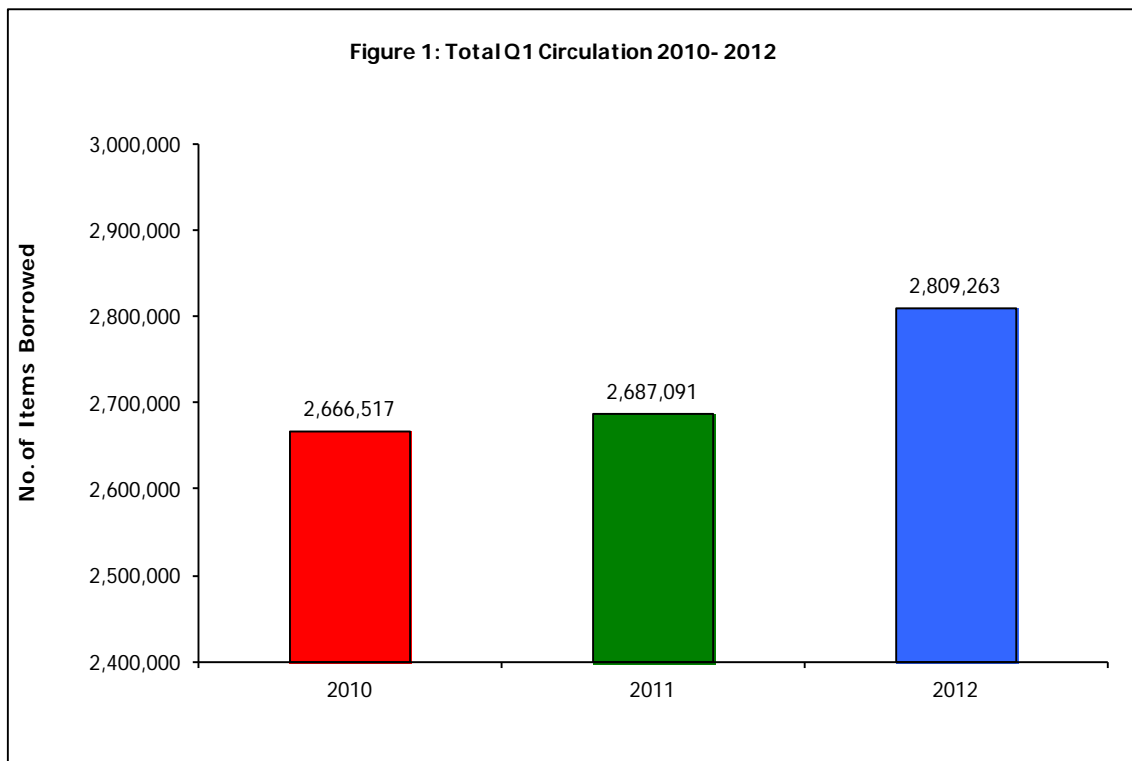

Figure 2 depicts total monthly circulation in Q1 for the past three years (2010 – 2012).

Table 1 provides the quarterly first-time circulation data and renewals for Q1 2012 as compared to Q1 2011. First-time circulation excludes renewals of library materials. Across the system, total circulation increased 4.6% compared to the same period in 2011. Circulation of materials at the rural branches increased by 8.8% in Q1 of 2012 compared to Q1 of 2011. The decline in Kiosk usage is attributed to technical equipment issues.

Table 1: 2011 -2012 Q1 Circulation				
Branch	2012	2011	+ / -	% Change
Alta Vista	78,454	54,158	24,296	44.9
Beaverbrook	158,610	140,281	18,329	13.1
Blackburn Hamlet	24,600	25,342	-742	-2.9

Total	657,669	623,138	34,531	5.5%
Total Circulation	2,809,263	2,687,091	122,172	4.6%

* The Hazeldean branch of the Ottawa Public Library is closed to receive improvements from January 23 to the month of June 2012 with limited service provided through a depot.

2. Circulation by Bookmobile Stop

Table 2 provides the quarterly first-time circulation data by bookmobile stop for Q1 2012 compared to Q1 2011. Total bookmobile circulation in Q1 2012 decreased 14% compared to Q1 2011. This decline is attributed to increasing requirements for maintenance and repairs on the aging bookmobile fleet (1995, 2005 respectively) In Q1 of 2012 mechanical problems affected the availability of the bookmobile service. Overall bookmobile service hours were reduced by 20% in Q1 of 2012 shortening schedules for almost all stops. The Bridlewood location is a new stop that was added to the bookmobile schedule on January 13, 2012.

Bookmobile stop	2012	2011	+ / -	% Change
Batemean	24	132	-108	-81.8
Bathgate	283	631	-348	-55.2
Bayshore	1,965	3,385	-1,420	-41.9
Blossom Park	456	578	-122	-21.1

Riverside Mall	1,235	1,401	-166	-11.8
Sarsfield	80	159	-79	-49.7
St Jerome Riverside South	5,685	6,393	-708	-11.1
Vars	1,237	795	442	55.6
Total	26,589	30,917	- 4,328	-14%

3. Circulation of French Language Materials

OPL is the largest officially bilingual (English-French) public library in North America. Ottawa has the second-highest percentage of people who speak both French and English of any major Canadian city (Source: Statistics on www.ottawa.ca). In 2006, 14.9% of the residents of Ottawa reported that their mother tongue was French while 15.7% of the residents of Ottawa reported that their first language spoken was French (2006 Census, Statistics Canada).

Figure 3 depicts total Q1 French material circulation trends for the past three years (2010–2012), including renewals. Circulation of French materials in Q1 2012 increased 4.3 % when compared to the same period in 2011 and increased 26.6% compared to the same period in 2010.

Figure 4 depicts total circulation of French materials in Q1 for the past three years (2010–2012).

Figure 4: Total Q1 Monthly Circulation of French Language Materials 2010- 2012

Table 3 provides the total circulation for French materials by branch for Q1 2012 compared to Q1 2011. Total French circulation increased 4.3% compared to the same period last year.

Table 3: 2011-2012 Q1 French Language Circulation				
Branch	2012	2011	+ / -	% Change
Alta Vista	9,478	5,712	3,766	65.9

In-branch	9,443	9,329	114	1.2
Online	78,297	73,199	5,098	7
Total	87,740	82,528	5,212	6.3%
Total Circulation	321,076	307,835	13,241	4.3%

4. Circulation of World Language Materials

In addition to English and French the OPL holds small collections of books, DVDs and compact discs in 24 languages. Of these 24 languages, the OPL actively collects materials in:

- Arabic
- Chinese
- Hindi
- Persian
- Russian
- Spanish
- Urdu
- Somali
- Tagalog

These languages were selected based on home language data from the 2006 census and immigration data to determine which languages are spoken by recent immigrants to Ottawa.

Figure 5 depicts total Q1 world language circulation trends for the past three years (2010–2012), including renewals. Circulation of world language materials in Q1 2012 decreased 7.2% compared to the same period in 2011 and decreased 16% compared to the same period in 2010.

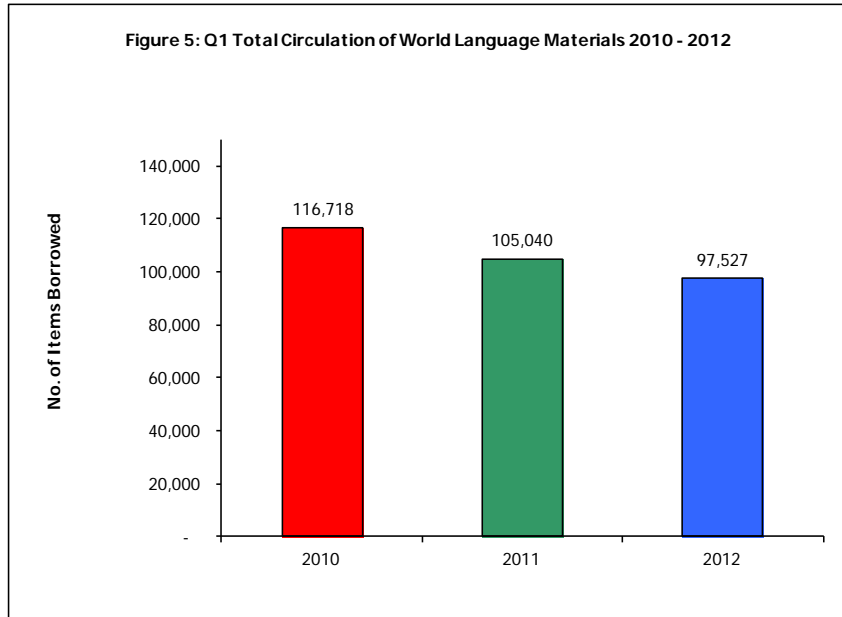

Figure 6 depicts the total monthly circulation of world language materials in Q1 for the past three years (2010 – 2012).

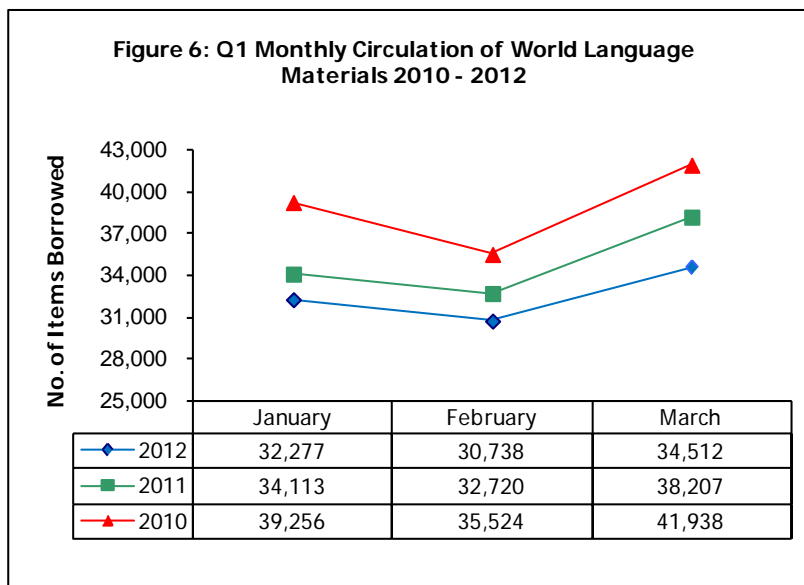

Table 4 provides total circulation data of world language materials for Q1 2012 compared to Q1 2011. Data is provided separately for the nine world languages that the OPL currently and actively collects. The category other languages includes circulation of all other world language materials. Circulation of world language materials in Q1 2012 decreased 7.2% compared to the same period in 2011. The decline in Chinese language materials circulation can be partly attributed to the closure of the Hazeldean branch.

Table 4: Q1 Circulation of World Language Materials 2011-2012				
Language	2012	2011	+/-	% Change
Chinese	33,450	36,739	-3,289	-9.0
Arabic	6087	4,968	1,119	22.5
Russian	5,222	5,137	85	1.7
Hindi	4,146	5,860	-1,714	-29.2
Spanish	3,595	3,231	364	11.3
Persian	1,552	1,300	252	19.4
Urdu	280	175	105	60.0
Tagalog	63	133	-70	-52.6
Somali	142	118	24	20.3
Other languages	9,975	10,639	-664	-6.2
Multilingual Periodicals	5,611	5,499	112	2.0
Total First-time	70,123	73,799	-3,676	-5.0%
Renewals	2012	2011	+/-	% Change
In-branch	1,805	2,328	- 523	-22.5
Web/My Account	25,599	28,913	- 3,314	-11.5
Total Renewals	27,404	31,241	- 3,837	-12.3%
Total Circulation	97,527	105,040	- 7,513	-7.2%

Placement of World Language Collections

In general, world language collections are placed in branches with the greatest number of identified speakers in the community. Circulation of the collections is reviewed annually, which may result in changes to the branches holding the collections.

Table 5 lists the branches where these collections are located.

Table 5: Location of Selected World Language Collections	
Arabic	Alta Vista , Greenboro, Main, Nepean Centrepointe, St-Laurent Travelling collections: Centennial, Beaverbrook, Elmvale Acres, Carlingwood, North Gloucester
Chinese	Chinese materials are shared throughout the system
Hindi	Main, Nepean Centrepointe, Beaverbrook, Cumberland
Persian	Main, Nepean
Russian	Beaverbrook, Main, Nepean Centrepointe, Ruth E. Dickinson, Hazeldean
Spanish	Alta Vista, Carlingwood, Main, St-Laurent, Vanier
Somali	Alta Vista, Elmvale Acres
Tagalog	Main, Elmvale Acres
Urdu	Main

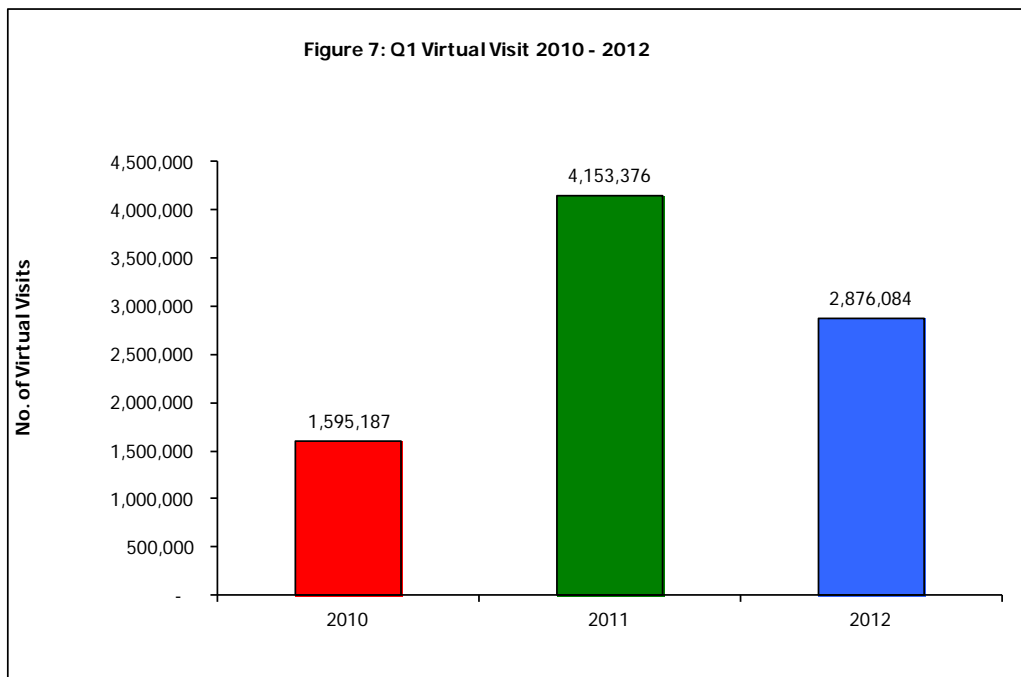

5. Electronic Usage

Traditional library usage has evolved to incorporate the convenience of remote access via the Internet. OPL offers a wide range of digital services, including access to the library catalogue and electronic databases, a province-wide digital reference chat service called askON, and the ability to download books and music.

5.1 Virtual Visits 2010 – 2012

A virtual visit is defined as a single session originated on the OPL website, the OPL children’s website or in the on-line library catalogue. The number of virtual visits in Q1 2012 decreased 30.75% compared to the same period in 2011 and increased 80.3% compared to the same period in 2010. Following the explanation in the Q4 2011 performance report (see page 16, measure 50) for the change in the Q4, 2011 numbers, there is now a stabilizing trend in the numbers for electronic visits. The usage increase from Q2, 2010 to Q3, 2011 is correspondent to a change in the way that sessions were handled at public catalogue PCs. A software change on catalogue PCs in late Q3 2011 has impacted session handling and decreased the number of hits from these PCs only. We have confirmed that external use continues to increase and the library should continue to report stable electronic visit usage.

Figure 7 depicts the number of electronic visits to the OPL in Q1 for the past three years (2010–2012).

5.2 Downloadable audio, music and e-books

Over the past three years OPL has expanded its downloadable media collection. In Q1 of 2010 audio books were the only downloadable format offered. By the fall of 2010 e-books in both French and English languages had been added to the collection. At the beginning of 2011, OPL offered iPod compatible downloadable audio books. By mid 2011 downloadable music and Chinese e-books were added to the service. In March 2012, OPL added Freegal, an electronic database of downloadable music from the Sony music catalogue. At present, OPL offers audio and electronic books and downloadable music for access on personal handheld devices such as MP3's, iPods, eReaders, tablets as well as personal computers.

Figure 8 depicts the number of downloadable audio books, e-books, and music files borrowed by OPL patrons in 2012 compared to 2011. The number of items downloaded Q1 2012 is 163% higher than for the same period in 2011. The increase can be largely attributed to the promotion of the service and the addition of new downloadable content available through the digital media section of the website.

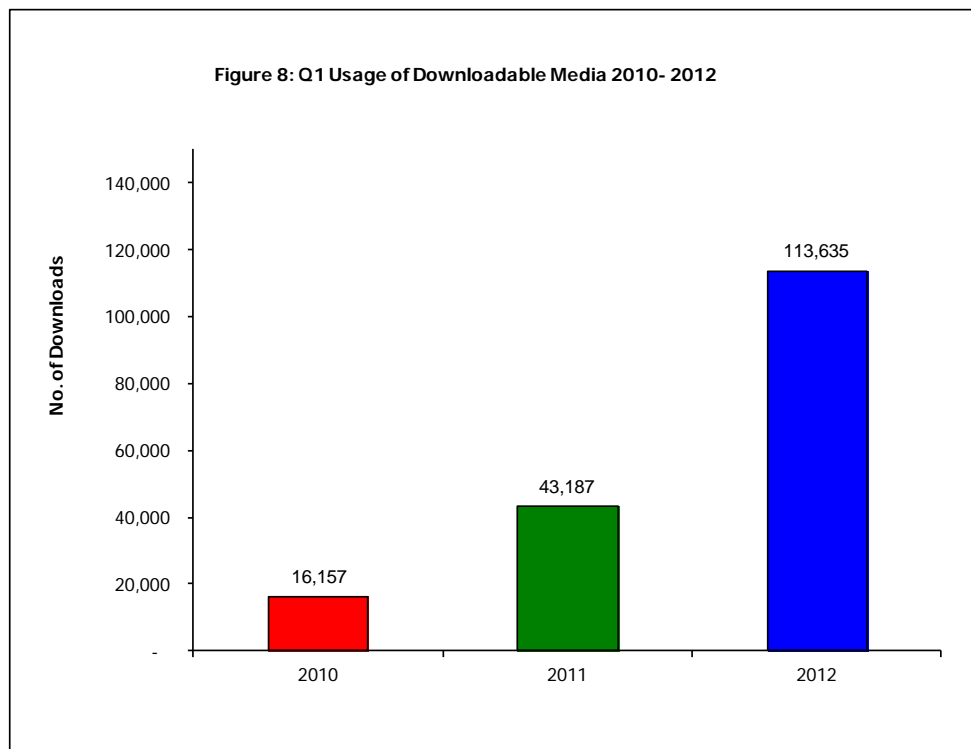

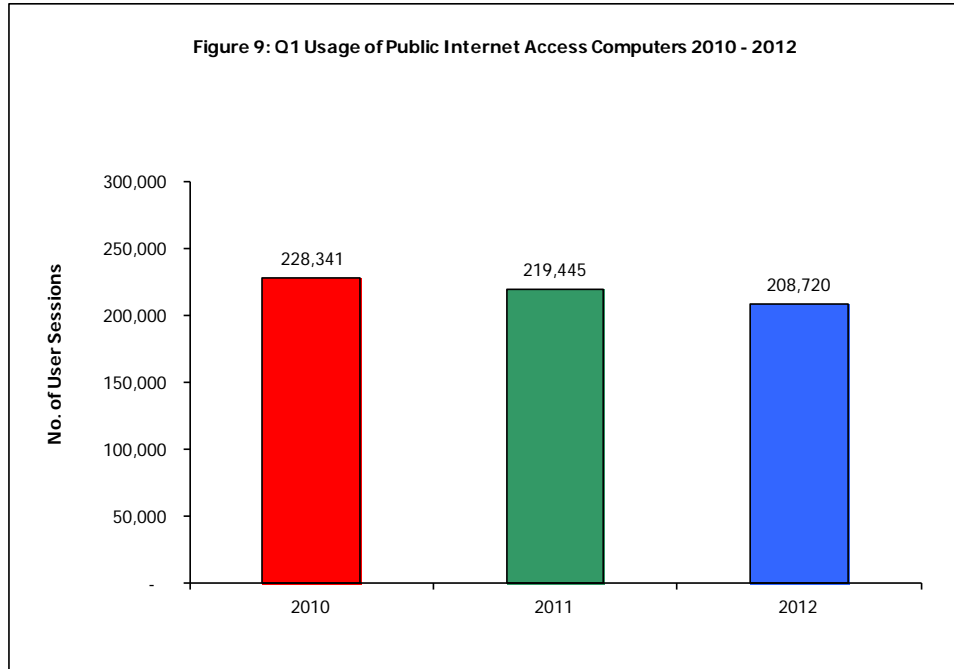

Table 6 depicts total media downloads for Q1 2012 compared to Q1 2011. The large 199% increase in the number of e-books downloaded is a result of ever-expanding e-book collection at the OPL. The large increase in music downloads can be attributed to the addition of the Freegal music download service.

Format	2012	2011	+/-	% Change
E-books	85,898	28,711	57,187	199.2
Audio Books	14,811	12,943	1,868	14.4
Music	12,926	1,533	11,393	743.2
Total items checked out	113,635	43,187	70,448	163.1%

5.3 Public Internet Access Computer Usage

OPL has 412 public access computers at its 33 branches. The computers provide high-speed Internet access and a variety of software applications, including Acrobat Reader, Excel, MSPaint, PowerPoint, Word and MSN Messenger. OPL cardholders can book public access computers for up to two hours per day. This service is particularly important to residents who do not have access, or have limited access to a computer or the Internet.

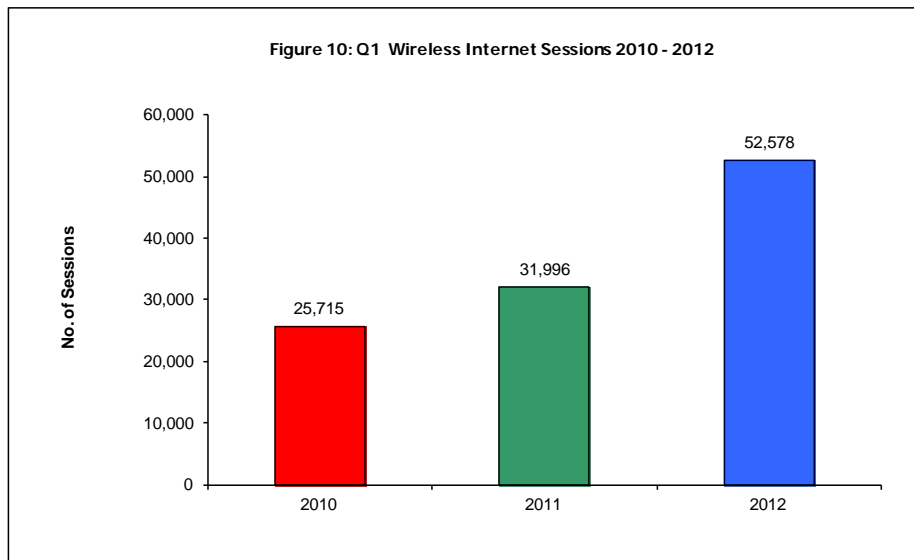

Figure 9 depicts the number of computer sessions initiated on OPL public access computers in Q1 2010–2012. In Q1 2012, the number of sessions decreased 4.9% compared to the same period in 2011. The decrease can be partly attributed to the closure of the Hazeldean branch and is further affected by the increasing usage of wireless devices.

5.4 Wireless Internet Sessions

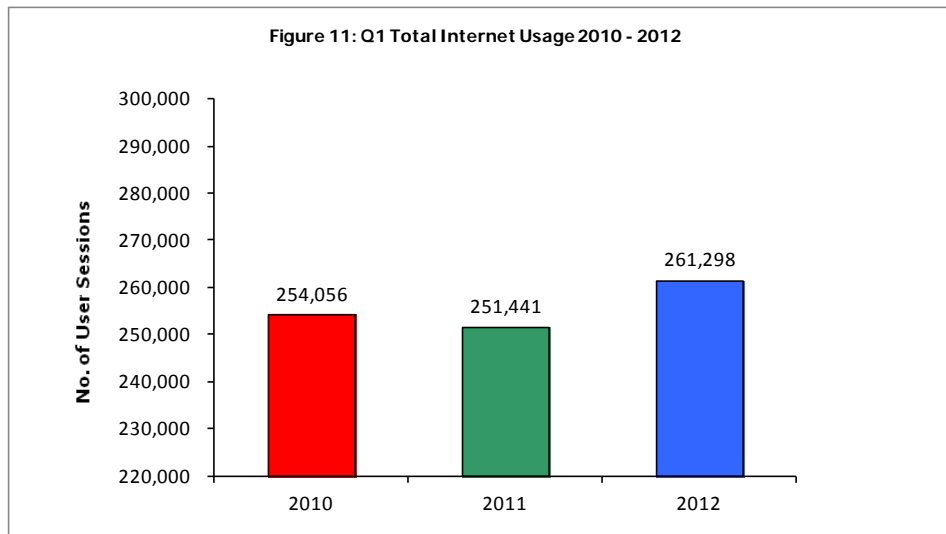

The Ottawa Public Library has wireless Internet service available at all 33 branches.

Figure 10 depicts the number of wireless Internet sessions initiated on the OPL wireless Internet network in Q1 2010 - Q1 2012. In Q1 2012, the number of wireless Internet sessions increased 64.3% over the same period of time in 2011 and increased 104% compared to the same period in 2010.

5.5 Total Internet usage

Figure 11 depicts the total number of combined Internet sessions initiated on OPL's public computers and the wireless network from Q1 2010 - Q1 2012. In Q1 2012, the total number of Internet sessions increased 3.9% over the same period of time in 2011 and increased 2.9% compared to 2010.

5.6 Library Database Usage

Library databases provide electronic access to the most recent articles from newspapers, magazines and reference resources. OPL offers access to 79 separate database products most of which can be accessed remotely. Library databases are available in English, French and Chinese. The products offered range from Tumble-books, targeted towards pre-schoolers, through academic research targeted at children and teens, to a wide-range of offerings for adults. A database access is a unique session established with a library database, regardless of the number of searches or the number of articles consulted during the session.

Figure 12 depicts the number of database accesses for Q1 2010 to Q1 2012. The number of database accesses in Q1 2012 increased 46% when compared to the same period in 2011. The increase can be attributed to an increased usage of the Tumble books and Press Display databases.

6. Programs Offered

OPL offers programs to residents of all ages. Programs are categorized by target audience:

- Adults (18+ yrs. old)
- Preschoolers - Children (0 – 12 yrs. old)
- Teens (13 – 17 yrs. old)

Programs for preschoolers and their parents or caregivers promote reading readiness. Programs aimed at children promote literacy and research skills, as do many OPL programs offered to teens. Programs targeted at adults range from interest talks to book clubs and computer literacy workshops.

Figure 13 depicts the number of programs offered in Q1 for the past three years (2010 – 2012). The total number of programs offered in Q1 2012 increased 6.5% from the same period in 2011. Adult programs increased 6.2%, teen programs increased 7.6% and preschool - children's programs increased 6.6%.

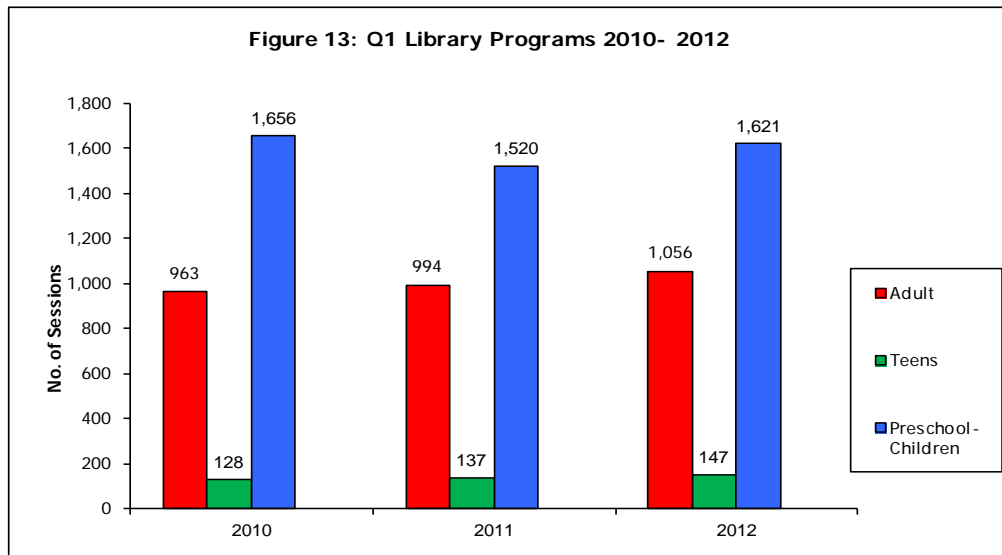

Figure 14 depicts the number of program attendees by audience for the past three years (2010-2012). Comparing Q1 2011 to Q1 2012 the total number of program attendees increased 2%.

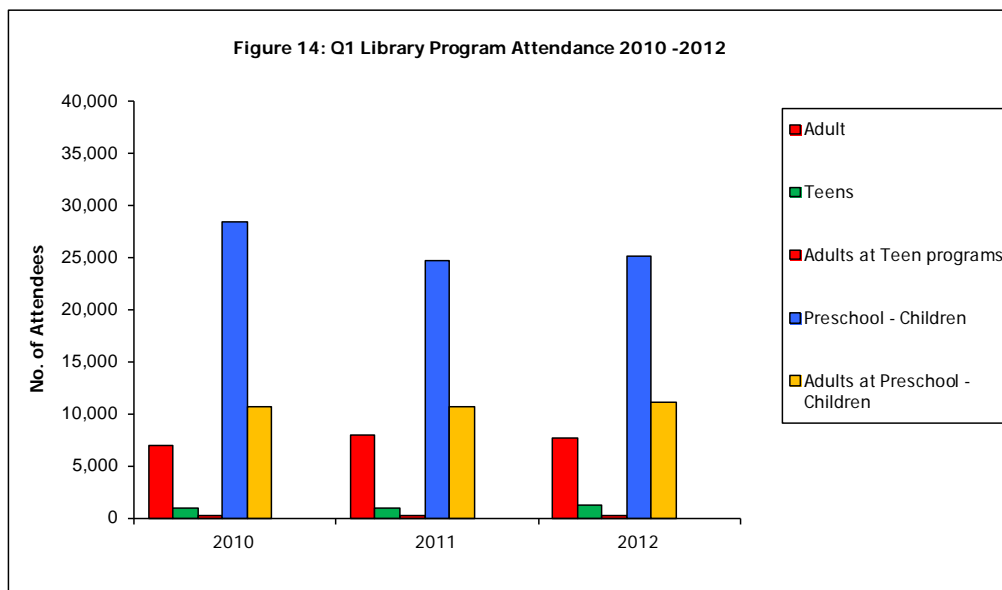

Table 7 depicts total program attendance by audience for the past two years. Total program attendance in Q1 2012 increased 2% compared to the same period in 2011. Adult program attendance decreased 2.6%, teen program attendance increased 41.3%, and preschool-children program attendance increased 1.5%. The increase in teen program attendance can be attributed to an increase in outreach and group visits for teens, and the implementation of the Teen Services Strategy.

Table 7: Q1 2012-2011 Program Attendees				
Attendees	2012	2011	+/-	% Change
Adult	7,674	7,878	-204	-2.6
Teens	1,289	912	377	41.3
Adults at Teen programs	157	193	-36	-18.7
Preschool - Children	25,079	24,707	372	1.5
Adults at Preschool - Children	11,107	10,730	377	3.5
Total Attendance	45,306	44,420	886	2%

7. Fourth Quarter Performance Reports to Council 2011

Corporate Planning and Performance Reporting Branch at the City of Ottawa issues a quarterly performance report to City Council. For this report, OPL reports on two Board approved measures:

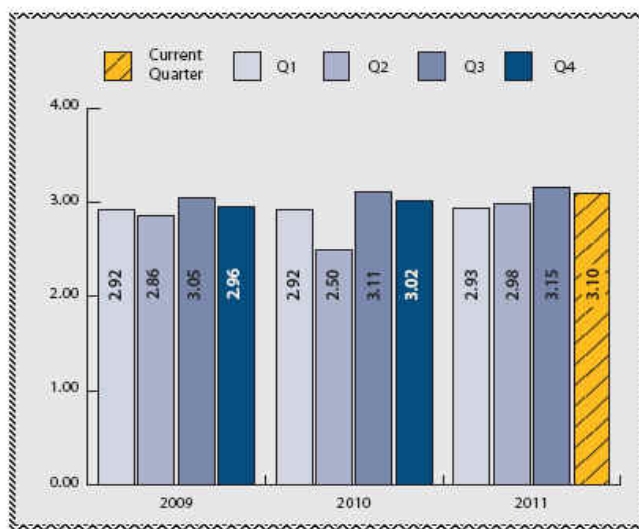

- Circulation per capita (quarterly)
- Number of electronic visits (quarterly)

These measures were selected as they reflect traditional and emerging uses of library service (i.e. circulation and electronic visits). These measures are not comprehensive, but provide a quick snapshot of library activity for Q4 over the past three years (2009-2011) normalized by population.

The text from OPL for the Q4 2011 Quarterly Performance Report to Council is below.

Ottawa Public Library

Measure 49: Number of circulations per capita (Library)

This chart reflects the total number of library items borrowed in a three-month period on a per-capita basis. In the fourth quarter of 2011, circulation increased by 2.79% compared to the fourth quarter of 2010 and increased 6.3% compared to Q4 2009. The following events affected circulation during these periods. In Q4 of 2009 the Sunnyside branch closed on November 30, 2009 for renovations and reopened in August of 2010; in November 2009, vandalism impacted bookmobile service; in Q4 of 2010 the Alta Vista branch closed on September 7, 2010 to allow for renovations. The branch reopened to the public on January 21, 2011. The Vanier branch was closed from June 28 to November 19, 2010 for renovations.

Measure 50: Number of electronic visits per capita (Library)

This chart reflects the number of virtual visits to the Ottawa Public Library website on a per-capita basis. In the fourth quarter of 2011, the number of virtual visits decreased by 26.9% compared to the fourth quarter of 2010 and increased 65.8% compared to the same period in 2009. Overall Web use has declined due to a reduction in visits reported from public desktops in library branches. City IT staff have confirmed that the decline in visits from in-library computers in September 2011 coincides with an upgrade of the SiteKiosk software used for public catalogue searching stations. (SiteKiosk uses the library website as the starting page.) Although unable to pinpoint an exact cause for the decline in visits, City IT staff note that it's possible that the upgrade introduced new efficiencies in the handling of multiple sessions.

Because there is no evidence that physical use of the catalogue declined in that period, and since usage of the website apart from in-library access has remained consistent, the Ottawa Public Library is confident that the decline is due to a technicality that did not have an impact on virtual library access by the public. It should also be noted that there has been no corresponding decline in the use of public computers in general.”

8. Other Surveys

The Ottawa Public Library submitted the following survey in Q1 of 2012.

- 2012 Public Library Data Service Survey
