Note :
-Natural area boundaries were based on 2001 aerial photo interpretation and 2003 field investigations. Additional environmental investigations beyond this Study may result in boundary refinements.
-Résultats reflètent la valeur environnementale relative du site. Les décisions d'aménagement ont été prises pour certains sites qui pourraient empêcher la préservation des valeurs environnementales définies.

Nota :
-Les limites des aires naturelles étaient basées sur la photo-interprétation de 2001 et les enquêtes sur terrain de 2003. Des enquêtes environnementales supplémentaires au-delà de cette étude pourraient résulter en un affinement des limites.
-Les résultats ne reflètent que la valeur environnementale relative du site. Les décisions d'aménagement ont été prises pour certains sites qui pourraient empêcher la préservation des valeurs environnementales définies.
