**COMMITTEE RECOMMENDATIONS**

That Council approve that the existing debt policies be continued while providing the required investment to maintain City assets in a state of good repair, and that in order to address the funding target as recommended in the *Comprehensive Asset Management Program* report, the following funding strategies be approved for consideration as part of future budgets:

1. That the use of debt for tax supported capital works continue to correspond to the amount of debt retiring within the year in accordance with Council's adopted target to limit debt service for tax supported debt to 7.5% of own source revenues;
2. To ensure capital funding is maintained and increased, starting in the 2013 budget year, the annual contribution from taxation for capital projects be increased by inflation (Construction Price Index) and by an additional \$5.4 million per year for both the renewal of existing assets and the increase in the asset base, as a priority within Council's approved tax targets;
3. Starting in the 2015 budget year, the portion of the contribution to capital used to fund capital projects classified as strategic initiatives (new capital works) be maintained at \$20 million per year and that priority be given, after the completion of the "Service Ottawa" project, to infrastructure investment;
4. Starting in the 2015 budget year, the enhancement component of any capital renewal project be identified and approved separately;
5. That the City of Ottawa Endowment Fund be maintained at \$200 million and any excess continue to be directed to fund the capital program; and

- (b) That the Project Agreement be amended to treat any cost overruns above the conditional guaranteed maximum price contract incurred by the members of OSEG for the City's portion of the Stadium Parking Garage as Additional Equity under the Closed System for the Lansdowne Partnership Plan, as described in this report; and,
- (c) That the description of the formula for City Funding Equity in the previously approved LPP Project Agreement Framework be amended to read as follows, "the lesser of the Maximum City Cost or the actual cost borne by the City for the Stadium Improvements and City's share of Cost of Parking less proceeds from the sale of air rights, less the amount that can be debentured from 75% of the realty taxes estimated from the project other than the residential component, less the amount that can be debentured from the avoided costs of \$3.8 million per year of the City by it not having to operate the Stadium" and that the Project Agreement be revised accordingly, as further described in this report.
