

Demolition Permit Application Guidelines

This information package has been prepared to assist individuals with the completion of the **Demolition Permit Application Form**. The Ontario Building Code Act states that no person shall demolish any building, as defined under the Act, without having first obtained a permit.

Pursuant to City of Ottawa Building By-law 2014-220, **Demolition Permit Applications** will only be considered by the Chief Building Official if accompanied by plans, specifications and documentation as listed below. Only complete submissions will be accepted. **Demolition Permit applications** are typically processed within ten (10) business days from the date of submission.

It is the responsibility of the owner to ensure that the appropriate Encroachment Permit is obtained prior to undertaking demolition requiring the use of the City road allowance in order to store materials and/or stage the work. Please call 613-580-2424, extension 16000 – Right of Way Permits and Applications Section.

It is the responsibility of the owner to ensure that the abandonment of a well is in accordance with the Ontario Well Water Regulation #903. Copies of the regulation may be obtained from www.e-laws.gov.on.ca. More information can be obtained from the Ministry of Environment Public Information Centre at 1-800-565-4923. Abandonment of a septic system requires that the septic tank be pumped, filled with sand and capped.

Tax adjustments are not automatic. You must apply for a property tax adjustment after the demolition has occurred. Applications must be filed with the City prior to February 28th of the year following the year of demolition. For details regarding the application process please refer to [cancellation, reduction or refunds of property](#) or call 613-580-2444. Section 357 of the Municipal Act provides the authority by which to apply for an adjustment of property taxes after a demolition has occurred.

Where the building to be demolished is located within the Area of Demolition Control as defined in the attached schedule 1 and includes the demolition of a residential unit and no replacement building permit has been issued, Demolition Control approval from the Planning and Growth Management Department is necessary. As well, Demolition Control approval will be required if the building is designated under Part IV or Part V of the Ontario Heritage Act. Application forms are available at all Client Service Centres or online, together with the requirements for submissions. Before making an application, you should discuss your proposal with Planning and Growth Management Branch staff
Note: A Demolition Permit may not be required for the demolition of farm buildings such as barns and silos.
