<p>Business Activities or Operations at the Premises</p>	<p><input type="checkbox"/> No, all wastewater generated by any business activity is diverted away from the OSS for proper disposal.</p> <p><input type="checkbox"/> Yes, any amount of wastewater generated by a business activity is discharged to the OSS. This includes, but is not limited to, waste from all grease traps, oil /water separators, amalgam separators, and silver recovery units.</p> <p>If yes, state which activity generates the wastewater discharged to the OSS:</p>																																

Additional documentation and requirements:

1- Provide premises' hazardous waste generator number and include the name of the waste hauler for waste or wastewater that is hauled offsite. A Waste Movement Document may be required to be submitted prior to approval.

HWIN No. ON _____

Hazardous/ Regulated Waste Hauler Company Name(s): _____

2- Submit a copy of the most recent maintenance record, manifest, or movement document for all grease traps, oil /water separators, amalgam separators, and silver recovery units. *Failure to submit any of these records or failure to install any of these devices where required will result in the denial of this application.

Records attached: Yes No

3- Describe the type of pretreatment system being used (if any) for each business activity wastewater stream discharging into the OSS (e.g. pH adjustment, metals precipitation, evaporator, dissolved air flotation, etc.):

If more than one business is connected to the OSS, such as at an industrial park or mall, list each business name and contact information. If more space is needed, attach a separate page using the same format.

Business name: Contact: Phone number:	Business name: Contact: Phone number:
Business name: Contact: Phone number:	Business name: Contact: Phone number:

The requested information is required to aid in determining whether or not the septage in your OSS may be hauled to the Pickard Centre for disposal. After review of this application, we may require that you sample your OSS for specific pollutants (e.g., metals such as mercury or organic pollutants such as toluene) or that Sewer Use staff inspect your facility prior to approval. If you choose not to follow through with these requirements, Sewer Use may not accept the waste at the Pickard Centre. If that happens, you should contact your septage hauler or local Ministry of the Environment contact for other disposal options. If you have any questions regarding this application or our requirements, please contact the Sewer Use Duty Officer at 613-580-2424 x 23326. Please allow up to five (5) business days for processing.

I certify that, to the best of my knowledge and belief, the information provided in this document and all attachments is true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of a fine or prosecution for knowing violations.
